

WHY CHOOSING ASU LAKE HAVASU WAS A MUST FOR ME

By Brooklyn Toni

My name is Brooklyn Toni, you may also know me as Racer #18, "Zamboni." I am a student in the accelerated Nursing program at ASU Lake Havasu.

The first time I had ever been to Lake Havasu City was for the 2022 Jetski World Finals. I instantly loved it here and knew this was where I wanted to call home. I continued to visit for races and later found out I could go to school here! I was absolutely stoked and applied as soon as I got home from my trip. Arizona State University at Lake Havasu was the absolute perfect college for me. Everything started to fall into place for me: I was accepted into the accelerated Nursing program, I could ride year-round, model, and get to live the "chill lake life" I always imagined I would.

A few summers ago, I was introduced to jet skis and instantly fell in love. After learning how to ride, I bought a vintage 1993 Kawasaki SX 550. After playing sports in high school and being super competitive, I knew I wanted to race with the boys. I started racing Deegan Newton's amazing series, Full Throttle Watercross. I fully moved here in July 2023, and I'm two weeks away from finishing my first semester of college. After I finish this semester, I plan to go race back north closer to home at Camp Far West in the Wild West Watercross series.

Lake Havasu was my new beginning, and I thank God every day for leading me here, to this sun-kissed little lake town.
